

**Let's join a ward community association!**

**In the case of an emergency, it is your neighbors that you can most rely on.**

**The neighbors' eyes watch strangers entering the community.**

Deepening your relationship with the neighborhood prevents crimes, such as by promoting the greeting of "hello" etc.

**Mutual aid at the time of a disaster**

If a major disaster strikes, the police and fire brigade or other city officials will not be able to reach local communities immediately.

During the Great Hanshin-Awaji Earthquake and Chuetsu Earthquake, about 90% of the disaster victims were saved through the rescue efforts of their fellow residents.

**First, contact the head of your ward's community association!**

*(Jichikai shien-shitsu, Komaki Shiyakusho)*

What is the purpose of the ward's community association?

The ward's community association is an autonomous organization consisting of residents and businesses of the administrative district.

\*There are 129 wards in Komaki City, and each ward's community association is engaged in creating a livable community environment that meets the needs of the district.

What kind of activities does the ward's community conduct?

While having a deep relationship with the local administration, it conducts various activities for you.

The head of the ward's community association represents the district and serves as a liaison for the city, dealing with many works: such as providing residents with information or announcements from the city by flyers or bulletin boards, repairing roads, setting up garbage disposal locations, installing security lights, etc.

**You cannot solve community issues and problems on your own. We encourage you to get involved with the ward's community association to help build a better community as a member of the ward in which you live.**

### Major activities of the ward

**Friendship activities** : Planning of a Bon festival dance, town festival, karaoke contest, athletic meet, and a recreational meeting for the aged, etc.

**Publicity work** : Distribution, circulation, notification, etc. about city public relations and information on the area indispensable to everyday life.

**Beautification activities** : : Cleaning of the town, parks, drainage sewers and city water, etc.

**Disaster-prevention activities** : Implementation of fire prevention and emergency drills, installation of voluntary disaster prevention meetings, etc.

**Activities for safety and security** : Conducting street activities of the "traffic death accident zero" day, anticrime activities by a crime prevention patrol party, installation and maintenance management of crime prevention lights, etc.

**Waste reduction activities** : Promoting recycling activities and waste reduction, installation and maintenance management of garbage disposal locations.
